The fourteenth meeting of the EU-Ukraine Parliamentary Association Committee (PAC) was held in Strasbourg on 8-9 June 2022, co-chaired by Vadym Halaichuk on behalf of the Verkhovna Rada of Ukraine and Witold Waszczykowski on behalf of the European Parliament. The Parliamentary Association Committee, having held extensive exchanges about the consequences of and joint responses to Russian aggression, recent developments in Ukraine and EU-Ukraine relations, agreed upon the following final statement and recommendations.

The Parliamentary Association Committee (PAC):

**Russian aggression against Ukraine**

1. Condemns in the strongest possible terms the Russian Federation’s unprovoked, unjustified, senseless and cruel military aggression against Ukraine and demands that the Russian Federation immediately terminate all military activities in Ukraine, unconditionally withdraw all military and paramilitary forces and military equipment, including those of its proxies, from the internationally recognised territory of Ukraine and its territorial waters, and fully respect Ukraine’s territorial integrity, sovereignty and independence within its internationally recognised borders;

2. Considers the military invasion as a gross violation of international law amounting to the crime of aggression that also constitutes an open and deliberate breach of the Russian Federation’s obligations and commitments as a permanent member of the United Nations Security Council and a signatory of the UN Charter, the Helsinki Final Act, the Charter of Paris for a New Europe and the Budapest Memorandum;

3. Calls on the Russian federation to return to the principles and mechanism of cooperation and security in Europe and the rules-based international order in order to respect and fulfil the basic principles of human coexistence and civilisation;

4. Praises the exceptional heroism of Ukrainian soldiers who are defending not only the sovereignty of Ukraine, but also the whole free and democratic European continent; pays tribute to those Ukrainian civilians and military personnel who gave their life in Ukraine’s defence;

**Human rights, international humanitarian law**

5. Condemns in the strongest possible terms the gross violation of human rights and international humanitarian law, including murders and mass deportations of civilians – men, women and children, the use of rape as an instrument of war and the destruction of civilian infrastructure such as schools, places of worship, cultural monuments, residential buildings and hospitals, committed by the Russian military in Ukraine;

6. Condemns the arbitrary detention and abduction of Ukrainian journalists, activists, elected representatives, civil servants, medics and paramedics in the temporarily occupied
Ukrainian territories, as well as the illegal deportation of hundreds of thousands of Ukrainians to the territory of the Russian Federation and their forced passage through so-called filtration camps; considers the above acts a direct, open and deliberate violation of the UN Charter, the Geneva Conventions, the Additional Protocol I to the Geneva Conventions, the Hague Conventions, the International Convention for the Protection of All Persons from Enforced Disappearance and the European Convention on Human Rights;

7. Calls on the Russian Federation to disclose information about the whereabouts and well-being of kidnapped and deported civilians and to ensure their freedom of movement and safe return to Ukraine;

8. Strongly deplorers the continued and forced “passportisation” of Ukrainian citizens on the basis of the amendments to the Decree of the Russian Federation № 183 of 24 April 2019 and the Decree of the Russian Federation № 187 of 29 April 2019 on facilitation of acquisition of Russian citizenship to Ukrainians and residents of the so-called “DPR” and “LPR”, as well as the Russian presidential decree reportedly signed on 30 May 2022 introducing a simplified procedure for orphans from Ukraine to acquire Russian citizenship;

9. Calls on the Russian Federation to allow immediate humanitarian access and safe passage of all civilians and to immediately allow the safe return of Ukrainians forcibly removed to Russia;

10. warfare; underlines that with each day at war, Ukraine faces a very high military bill due
to loss of equipment that may accumulate to reach EUR 100 billion by the end of the year;
notes therefore the need to significantly increase EU military aid provided under the
European Peace Facility, while the United States offered to provide 30 billion USD in
military assistance;

law according to Article 51 of the UN Charter, which allows for individual and collective
self-defence;

for Ukraine’s continued resistance against Russia’s brutal aggression, which bears an
insurmountable cost of nearly 10 billion euros to Ukrainian military per month, as well as

finally - putting an end to the ongoing war and human suffering inflicted by Russia and its

further sanctions in the energy and banking sectors; reiterates that - in order to stop funding

Russian oil, coal, nuclear fuel and gas, including completely abandoning the Nord Stream
II project and cutting gas deliveries through the Nord Stream I pipeline;

war crimes as a strong signal of the determination to pursue accountability for these crimes
without prejudice to subsequent legal procedures under Ukrainian domestic legislation,
universal jurisdiction or dedicated international mechanisms;

build a wide international coalition in support of EU sanctions, notably in the EU
neighbourhood, Africa and Asia, as well as to counter disinformation narratives propagated
by the Russian Federation; underlines the importance of imposing restrictive measures
against Russian individuals and entities responsible for or involved in proven cyber-attacks against Ukraine;
